H1N1 Vaccination - Question and Answer

Question: Can I get the H1N1 vaccination at the Gateway Community Health Centre?

Answer: Yes you can. Gateway now has access to the H1N1 vaccine. However, once each 10 dose vial of the vaccine is opened, it must be used within a 24 hour period. Therefore we will be keeping track of requests for the vaccine and will arrange for appointments once we know the exact number of vaccinations required.

If a client of Gateway or a member of the Community wants the H1N1 vaccine, please call **(613) 478-1211** to have your name added to our **request list**. We will then call you back to schedule an appointment, once we have the vaccine on hand.
